

PRO871 CABLE LOCATOR

The Pro871 Features

- Locates Buried Wires and Cables.
- Dual Frequency Capability (Hi/Lo).
- Inductive Clamp Included (Pro871C).
- Audible or Visual Power Indicators.
- Low Battery Indicator.
- Null or Peak Reception Options
- Custom Molded Case.
- Uses 8 "D" Cell batteries (not included)

FEATURES

The Pro871 Cable Locator is a new low cost locator for contractors and maintenance personnel. Incorporating a dual frequency transmitter and sensitive receiver, the Pro871 tracks many types of cabling, including CATV, electrical, telephone, and lighting. The Pro871 transmits an easy to follow beep signal that is tracked by the receiver. Simply connect the transmitter to ground and the wire to be tracked and turn it on. Follow the beeps with the receiver using the visual meter, external speaker, or a headset.

The Pro871 offers features not previously available at a budget conscious price point. The Pro871 features both high and low frequency capability and either null or peak tracking capability. In addition, the IC871 inductive clamp (included with the Pro871C) allows non-metallic connection to wires and cables, inducing signal onto the conductor and providing a tracing signal.

SPECIFICATIONS

Power Requirements: Transmitter – (8) D batteries; Receiver – (1) 9V battery

Battery Life: Transmitter – 50 hours

Receiver – 15 hours

Transmitter Frequency: 2Khz and 33Khz

Transmitter Power: 200mW into 1K Ohm

Voltage Protection: 110VAC/200VDC

Weight: 8 Lbs

Warranty: 12 Months

ORDERING INFORMATION

CAT NO.	DESCRIPTION
Pro871C	Pro871 Cable Locator Kit with induction clamp
Pro871	Pro871 Cable Locator Kit
Pro871R	Pro871 Receiver
Pro871T	Pro871 Transmitter/Carrycase
IC871	Pro871 Inductive Clamp
Pro871ST	Pro871 Ground Stake
ProH1	Headset
Pro871CS	Pro871 Cordset
