

The perfect combination: the speed of a ratchet and superior strength.

Mirror finished chrome vanadium steel construction exceeds all applicable ANSI specifications for strength.

Narrow cross-section design on box and open ends allows access to tighter work spaces, making wrench more versatile.

Open end jaw surfaces are parallel to within ± 0.0015 " for better contact with fastener surfaces and higher torque transfer.

This wrench works in places even deep sockets won't reach. It's perfect for positioning and tightening bolts on threaded rods.

Ratchet feature speeds up any job.

Patented. Exceeds all applicable ANSI Specifications for strength.

Catalog Number	Description
----------------	-------------

FR4	Ratcheting Combination Wrench, SAE, 4 Piece Set
-----	---

Ratchet feature turns fasteners with just a 5° swing vs. 30° needed for standard wrenches. Turns fasteners fast with its quick back and forth motion.

The box end ring gear has 72 extra-fine teeth, precision machined and specially heat-treated for exceptional strength.
