

Get the Sets that Meet the Specs

Crescent® Brand Tool Sets...tough enough to meet the new ANSI and ASME strength specifications 100%

Compare Crescent brand 148-piece, 70-piece, and 30-piece tool sets to any others and you'll see the value right away – these sets feature 72-tooth ratchet drives for a 5° swing that's perfect in tight spaces, convenient quick-release button operation, and 3/8" drive 12-point sockets to increase fastener contact area for maximum torque. Durable storage cases have raised-letter ID for each tool location, so they'll stay organized, plus tools lock securely in place, a true benefit for work vehicles or other places where tools get knocked around.

148-Piece Professional Tool Set

This set contains all the tools needed for most industrial applications, including 1/4", 3/8", and 1/2" quick-release ratcheting drives, with a wide selection of standard and deep sockets in the most common SAE and metric sizes.

All tools in this industrial-quality tool set meet stringent new ANSI and ASME specifications and come with a full satisfaction guarantee.

7-Piece Reversible Ratcheting Combination Wrench Sets

They work where other wrenches won't.

Crescent® brand Rapid Reverse wrenches reverse turning direction with just the push of a button, even in the tightest spaces. And, unlike many ratcheting wrenches, they have a 15° bend, just like standard combination wrenches, so you can grip the wrench easier and apply more power without risking skinned knuckles. The 72-tooth ratchet also allows you turn fasteners with just a 5° swing compared to 30° needed for standard wrenches.

These wrenches feature a narrow cross-section design for increased versatility, and are made from mirror finished chrome vanadium steel for maximum strength, durability and corrosion resistance. Sets come in an easy-access textured plastic carry case with snap-fit closure.
