

MultiLog[®] Datalogging MultiMeter

Log and view up to 43,000 data points at capture rates as fast as 20 times per second

View stored data directly on LCD display with quick min/max and trend displays

Features:

- 10 selectable datalogging sample rates from 0.05 second (50ms) to 480 seconds (8 minutes) per sample for high speed data collection or long time studies
- 43,000 data point memory
- Optically isolated RS-232 PC interface with Windows[®] 95/98/NT/2000/ME/XP compatible software (included) allows user to collect, display, plot, save or export data or graphs
- Rugged design with protective holster and water resistant housing
- High basic DC Voltage accuracy of 0.08%
- True RMS measurements for AC Voltage and Current
- Wide AC Voltage bandwidth of 40Hz to 20kHz
- Smart auto power off is disabled if signal is present at test leads
- Temperature function with selectable °F/°C units
- Backlit 5000 count LCD display for high resolution (0.01mV, 0.1µA, 0.01½, 0.01nF, 0.001Hz)
- Hold and low resistance auto-lead zero
- 10 measurement functions including AC/DC Voltage and Current, Resistance, Temperature, Frequency, Capacitance, Diode and Continuity
- Complete system includes multimeter with built-in stand, CAT III test leads, Temperature probe (-58 to 482°F/-50 to 250°C), software, RS-232 cable, protective holster and 9V battery. (AC adaptor not available)

Applications:

- Use logged data collected in the field to generate reports
- Monitor and analyze electrical parameters over time
- Use with multimeter adaptors to perform studies on Airflow, Humidity, Light Level, Large Currents and rpm measurements
