One tool. Get more done.

Measure temperature,
humidity, velocity, CO, and CO₂
with the
Fluke 975 AirMeter™.

One tool. Quick answers. New Fluke 975 AirMeter™

The Fluke 975 AirMeter™ raises indoor air monitoring to the next level by combining five powerful tools in one rugged and easy-to-use handheld tool. The Fluke 975 AirMeter™ test tool makes indoor air quality testing easier and faster. It measures:

temperature

velocity

humidity

CO₂

CO

New

Features

- Simultaneous measurement, logging, and display of temperature, humidity, CO₂, and CO on a bright, backlit LCD display
- Determine air flow and velocity with available probe attachment*
- Wet bulb and dewpoint temperature
- % of outside air calculation
- CO₂ and CO field calibration
- Auto-backlight
- Min/Max/Average on all measured and calculated readings
- Metric or standard units
- Data logging
- FlukeView® Forms software

Use the Fluke 975 AirMeter™ test tool to:

- Respond to comfort-related calls from occupants
- Verify the operation of building HVAC control systems
- Determine whether adequate ventilation exists
- Monitor air flow and velocity*
- Test for dangerous carbon monoxide leaks
- Optimize HVAC systems to manage energy costs

*with available air velocity accessory probe

Get more done with Fluke tools designed for all of your HVAC and IAQ needs.

FLUKE®

Multipurpose thermometer for heating, ventilation, air conditioning and refrigeration inspections. Lighten up your toolbox with the one tool that combines the temperature measurement functions professionals need most for inspecting HVAC/R. The **Fluke 561 HVACPro** provides both non-contact and contact temperature measurements, replacing several other test tools. It is fast, efficient and easy to use, saving you valuable time and effort.

Diagnose and repair HVAC/R systems with a True-rms Clamp Meter that measures capacitance, temperature, and DC microamps. With true-rms technology and a CAT III 600 V rating in a rugged, reliable case, the **Fluke 902 HVAC True-rms Clamp Meter** is an essential part of any HVAC/R professional's toolkit.

Locate building problems quickly and easily with the **Fluke TiR Series Thermal Imagers**. High-resolution, industry-leading sensitivity and large five-inch color display make these imagers perfect for building diagnostics. Optional IR Fusion technology integrates thermal and visual images. A 180° articulating lens plus one-finger SmartFocus deliver great images when access is poor. Built-in auto-capture, alarm, and analysis functions help you locate intermittent problems (TiR2 and TiR4 only). Powerful analysis and reporting software is included with all of the TiR Series imagers.
