

ROBINAIR Dial-A-Charge[®] Charging Cylinders

U.S. Patent No. 3,052,101; Canadian Patent No. 688,223

- Allows systems to be charged quickly, with the precise amount of refrigerant required by the manufacturer
- Simply “dialing” the shroud to correspond with the pressure gauge, allows you to compensate for any ambient temperature changes
- Sightglass allows you see the level of refrigerant in the cylinder
- Accurate charging eliminates call-backs caused by under or over-charging
- Cylinders may be economically filled from a bulk tank
- Includes Heater, to increase cylinder pressure and speed refrigerant transfer
- For safety, all cylinders are equipped with pressure relief valves, which automatically reset once a safe working pressure is restored
- Includes a durable Polyethylene Case for protection during storage and transit
- All Models are equipped with 1/4" SAE fittings
- Available in 110V or 220V versions
- 220V models are CE approved
- Made in USA

MODEL NO.	R-12, R-22, R-134a	R-502	110V	220V CE Approved	Graduations	Capacity
43299B	•		•		1 oz.	2.5 lb.
43302B	•		•		25 g.	1100 g.
43678B	•		•		1 oz.	5 lb.
43681B	•		•		25 g.	2200 g.
43134B		•	•		1 oz. 25 g.	2.5 lb. 1100 g.
43534B		•	•		1 oz. 25 g.	5 lb. 2200 g.
20349B	•			•	25 g.	2200 g.
43679B	•			•	1 oz.	5 lb.

Note: All models are equipped with 1/4" SAE fittings.
