

SBS GL-1000 Constant Current Electronic DC Load Tester

Battery Capacity Tester (1,000 Watts)

The SBS GL-1000 is a great tester for single cells or lower ampere hour battery systems up to 64 Vdc.

- Adjustable, constant current load
- 1.0V to 64.0V Range
- Parallel operation to enable increased load — up to four units
- Selectable Constant Current or Constant Resistance
- Weight: 11 lbs.

Voltage/ Loading Capacity:
 Input voltage: 120/220 VAC; 60/50 Hz
 Maximum Loading Power: 1,000 Watts
 Minimum Loading Voltage: 1.0 VDC
 Maximum Loading Voltage: 64.0 VDC
 Maximum Loading Current: 200AH

Cat. No GL-1000

Conversion Table		
Watts / Voltage = Current (Amps)		
Watts	Voltage	Max Current (Per Unit)
1000	64	15.6 Amps
1000	48	20.8 Amps
1000	36	27.7 Amps
1000	24	41.6 Amps
1000	12	83.3 Amps
1000	6	166 Amps
1000	2	200 Amps (max)
