

Thank you for purchasing the Skutch AS-703-H Promotion-On-Hold Module. With this Module, all calls that are placed "ON HOLD" will hear the Promotion-On-Hold audio. When the call is re-answered, the audio will automatically disconnect.

This unit works with the Verizon NSQ412 phones.

When a line is placed "ON HOLD", the corresponding LED on the AS-703-H will light indicating that audio is being coupled to that telephone line. The unit will play audio to all calls that are placed ON HOLD. Make sure that you adjust the level of the music to the proper level on the audio source.
