

• **Introduction**

Thank you for purchasing the Skutch CK-10 Telephone Handset Audio Playback Adapter. The CK-10 was designed to play pre-recorded audio, from a variety of audio sources, over the telephone line. You can use the CK-10 on either single line or multi-line telephones. The CK-10 easily installs between the handset and the base of the telephone. The Audio In on the CK-10 is connected to the headphone output on your audio source. Use the volume control on the audio source to control the volume.

• **Operation**

For normal telephone operation, the **Audio Control** switch must be in the UP position. Once you are ready to play audio over the telephone line, simply depress the **Audio Control** switch to the DOWN position. Audio from the audio source will now be playing over the line. The microphone on the telephone is muted in this position. The touch tones from the telephone key pad should still be . Adjust the audio level from the audio source to the proper level.
