### ◆ Vernier Adjustment Provides 0.001 psig Resolution

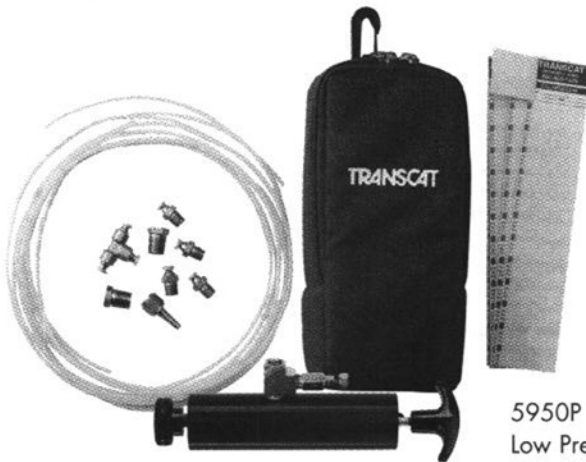

#### Hand Pump-Low Pressure and Vacuum

The 6215P generates up to 200 psi on a dead-end circuit. The 4238P produces a maximum vacuum of 600 mmHg. The vernier adjustment knob offers fine-tuning and a man-

ually controlled bleed valve controls venting. Each unit includes a 1/8" FNPT source connection with a bleed valve. The 5950P and 5951P pump kit includes a selection of tubing and fittings, a package of calibration labels and a carrying case.
